

DOORS PRESENT THE TURKISH LEAGUE

The Turkish League refers to systems that determine the rules of classic sports based on the quality of play.

Classical sports reward results. The Turkish League rewards quality of play.

TURKISH LEAGUE RULES :

The Turkish League regulates league, team, and individual sports rules.

The Turkish League is defined and promoted through football.

Turkish League football rules encompass all sports.

The Turkish League rules are divided into three main categories :

1) Draw Rule, 2) Positive and Negative Points, and 3) League Grouping

1- DRAW RULE :

i) The draw rule cancels out a draw.

ii) Winning, losing, drawing, and tie-breaking reduce the classic sports outcomes to two.

The team or player that achieves a draw in a match is declared the winner.

This result is called a draw victory.

In a football match ending 1-1, the winner is the team that overcame a 1-0 deficit and achieved a draw.

Draw victories are worth two points.

The team that achieved the draw earns the two points.

Teams that fail to maintain a lead do not earn any points.

In individual competitions (swimming, athletics, etc.), the winners are the athletes who achieved a draw.

0-0 football results are worth zero points.

In a 0-0 football result, both teams receive zero points.

Two points cannot be divided by two.

2- PLUS AND NEGATIVE POINTS :

1) i) A goal scored from outside the penalty area is plus one point.

ii) A goal scored from a corner kick before the ball leaves the penalty area is plus one point.

A team can receive a maximum of one plus point in a match.

Goals scored after the first point are not counted as plus points.

2) Away wins are plus one point.

For teams from the same city to receive the away plus one point, they must beat their opponents twice in a league season.

3) 1-0 or 0-1 losses are deducted as one point.

A team that loses 1-0 or 0-1 will have one point deducted.

This rule only applies to 1-0 or 0-1 losses. The negative point and point deduction rules do not apply to losses of different lengths.

4) The Turkish League ends the three-point rule for wins. In Turkish league rules, a win is worth two points.

5) Positive points are never deducted under any circumstances and are valid for all results.

Example : In a match with two positive points and a 1-1 away win : the losing home team will receive 1 point, and the winning away team will receive $(1+1+2) = 4$ points. (1 = positive point, 1 = away win, 2 = match win points)

3- LEAGUE GROUP RULES :

1) In an 18-team football league, the league is divided into three groups after the 11th week.

Teams 1-6 are Group 1, teams 6-12 are Group 2, and teams 12-18 are Group 3.

i) The primary purpose of the league group rules is to eliminate match-fixing, cheating, and fraud in sports.

ii) The second important purpose of the league group rules is to protect the rights of relegation zone teams (Group 3) until the end of the league after the 11th week.

2) In the 12th-22nd week period, in Group 1-Group 3 matches : The rules for 0-0 draws, 1-0, 0-1, and one-point deduction are removed **for Group 3 teams.**

Group 3 teams also earn one point in 0-0 draws.

These rules apply to Group 3 teams until the end of the league.

3) In Group 1-Group 3 matches between weeks 22-30 :

If a Group 1 team draws or loses (including 0-0), 3 (three) points will be deducted.

4) In Group 1-Group 3 matches between weeks 30-34 :

If a Group 1 team draws or loses (including 0-0), **10 (ten) points will be deducted.**

If a Group 3 team draws or wins (including 0-0), **10 (ten) points will be awarded.**

BASKETBALL

In the Turkish League, basketball is played both on a point and score basis.

In the Turkish League, basketball is played in four 10-minute games.

In the Turkish League, basketball spectators watch four games in one match.

According to the rules of the Turkish League, there are three types of wins in basketball : 1- Tie win, 2- Period win, and 3- Points advantage win.

In the Turkish League, **period wins + points advantage win** determine the outcome of a basketball match.

Winning a period is worth **one point**.

Winning a period by achieving a tie in the first and second periods is worth **two points**.

Winning the match by losing the first period and achieving a tie in the second period is worth **four points**.

Winning the match by winning all four periods is worth **four points**.

Period wins are also **plus points**.

An away win plus 1 point is only awarded for points advantage wins.

1) If Team A wins all four ten-minute periods, they earn four points.

i) Team A = points for winning 4 periods + 2 points for winning by points advantage = 6 points Result:

Team A 6 points - Team B 0 points

ii) Team A or B, which wins the match by points advantage, receives an additional +2 points for winning.

iii) Team A, which wins an away game by points advantage, receives an additional +1 point.

2) If Team A, which wins the first period, wins the second period, they earn 2 points.

If Team A, which wins the first two periods, also wins the third period, they earn 3 points.

If Team A, which wins the first three periods, loses the last period, according to the tie rule, Team B receives two points for a tie and four points for winning a period.

i) Team A gets $1+1+1$ (period points) = 3 points. Team B gets 2 draw points + 4 points (period win points) = 6 points.

Result: Team A 3 points - Team B 6 points.

ii) If Team A wins the first three periods but loses the last period, yet wins the match by points advantage;

Result: Team A $3+2$ points = 5 points - Team B 6 points.

iii) If Team A wins the first three periods but loses the last period, and Team B wins both the last period and the match by points advantage; Team A gets $1+1+1$ (period points) = 3 points - Team B gets $2+4$ points (draw win + win points) + 2 points advantage wins + 1 away win = 9 points.

Result: Team A 3 points - Team B 9 points.

iv) Team A or B, whichever wins the match by points advantage, gets an additional +2 win points.

v) Away win by points advantage is +1 point.

3) If Team A wins the first period but loses the second, Team B gets two points according to the draw rule.

If Team A wins the first period and wins the third and fourth periods, they get four win points.

i) Team A: $1+1+1+4 = 7$ points Team B: 2 points

Result: Team A 7 points - Team B 2 points

ii) Team A or B, whichever wins the match by points advantage, gets an additional +2 win points.

iii) Away win by points advantage is +1 point.

4) If Team A wins the first period but loses the second, Team B gets two points according to the draw rule.

If Team A loses the second period but loses the third and wins the fourth, they get two points for a draw and four points for a period win.

i) Team A: $1 + 2 + 4 = 7$ points Team B: $2 + 1$ point = 3 points

Result: Team A 7 points - Team B 3 points

ii) Team A or B, whichever wins the match by points advantage, receives an additional +2 win points.

iii) An away win by points advantage is +1 point.

Note: I may have made some errors in the scoring. Errors will be corrected. The logic of the system is simple and robust. Thank you for your understanding.

5) Turkish League football rules also apply to basketball matches and leagues.

BASKETBALL LEAGUE GROUP RULES :

1) In an 18-team basketball league, the league is divided into three groups after the 11th week.

Teams 1-6 are Group 1, teams 6-12 are Group 2, and teams 12-18 are Group 3.

i) The primary purpose of the league group rules is to eliminate match-fixing, cheating, and fraud in sports.

ii) The second important purpose of the league group rules is to protect the rights of relegation zone teams (Group 3) until the end of the league after the 11th week.

2) In the period between weeks 12-22, in Group 1-Group 3 matches: Teams that lose to Group 3 teams will have **10 (ten) points deducted.**

3) In the period between weeks 22-30, Group 1-Group 3 matches : Teams that lose to Group 3 teams will have **15 (fifteen) points deducted.**

4) In Group 1-Group 3 matches between weeks 30-34 : Teams that lose to Group 3 teams will have **20 (twenty) points deducted.**

5) Plus points are always valid and will not be deducted under any circumstances.

Example : If a Group 1 team loses to a Group 3 team in week 34 and has plus three points, **the points to be deducted will be = 20 - 3 = 17**

Note : The tie rule in basketball matches has two stages : first half and total score.

If a team wins the first half 1-0, they must also win the second half to win the match.

If the score is 1-1 in the second half, the team that achieves the tie wins the match.

VOLLEYBALL - TENNIS AND OTHERS

Turkish league rules cancel out tie-break sets.

Volleyball and tennis matches are played over four sets.

All sports leagues, branches, and matches are reorganized according to Turkish League rules.

TURKISH LEAGUE INTELLECTUAL PROPERTY RIGHTS

The intellectual property rights of the Turkish League belong to the President, Mr. Recep Tayyip ERDOĞAN, and the Justice and Development Party (AK Party), after myself.

2026 WORLD FOOTBALL CHAMPIONSHIP

The Turkish national football team, a contender for the world championship like every other team in 2026, faltered and became the first team to be eliminated from the championship.

This result caused great disappointment among sports critics and, as with every defeat, led them to demand the disbandment of the national team and the formation of a new one.

Turkish sports critics believe that the victories of teams are due to their own minds, while the defeats are due to the minds of the managers, coaches, and players.

Life is based on two foundations: victory and defeat.

There is no such thing as a life of victory-victory or defeat-defeat.

It is ignorance to blame teams for not being champions and successful.

The last 120 years of Zionist occupation have reduced Turkish sports to zero.

We do not see any sports critics or fans criticizing the 120-year Zionist occupation in Turkish sports.

Question: Who is Turkey's best football manager?

Answer: Recep Tayyip Erdoğan.

Question : Which is the most successful team in Turkish sports history ?

Answer : AK Party.

Question: Who are Turkey's smartest and best supporters?

Answer : Turkey's smartest and best supporters are the citizens who vote for Recep Tayyip Erdoğan, the AK Party, and the People's Alliance.

The biggest disease of Turkish football is impatience. Great successes in football come after at least twenty years of stability. Turkish football administrators must get rid of the disease of changing managers every four months. You can't achieve anything by changing 120 managers in 120 years.

A manager is not a car spare part.

The best manager that Turkish football clubs should emulate is Recep Tayyip Erdoğan, and the best team is the AK Party.

Mr. Vincenzo Montella is a very successful manager. We love Mr. Vincenzo Montella and our national team players very much. The Turkish national football team is very successful and stable under the management of Mr. Vincenzo Montella.

We congratulate Mr. Vincenzo Montella and our national team players for their recent outstanding achievements, including the 2026 World Cup. We wish Mr. Vincenzo Montella and our national team great success in the upcoming championships.

The national team will continue its journey with Mr. Vincenzo Montella.

This picture from Turkey is the same in every country in the world.

Dear Mr. President Recep Tayyip ERDOĞAN,

Our website, www.doorsnews.com, which has reached 2 billion followers in 200 countries, has started accepting advertisements.

I respectfully request that you instruct the public banks Ziraat Bank, Halkbank, Vakıflar Bank, Emlak Bank, and the PTT general directorate to place advertisements on our website.

My Dear Followers

The Turkish League is the greatest revolution in the history of world sports. With the Turkish League, sports have regained their true spirit and identity.

The rules of the Turkish League have established justice in sports.

The Turkish League has eliminated the environments that pave the way for all illegal activities, including cheating, match-fixing, and fraud in sports.

In the Turkish League, the champion and relegated teams will not be determined until the last minute. League standings will be constantly adjusted.

All the rights of champion, top-ranked, and relegated teams are protected in the best possible way.

The Turkish League also protects the rights of sports clubs, club presidents, managements, athletes, fans, and spectators in the best possible way.

There is no doubt that the Turkish League will make a huge contribution to social peace and tranquility by ending tension, chaos, and conflict in sports, especially football.

We invite President, Mr. Recep Tayyip Erdoğan, and Ministry of Sports to instruct that all leagues, especially football and basketball, be played under the Turkish League in the 2026-2027 season.

We invite our citizens to share the Turkish League on social media.

We invite national media, sports organizations, social media and content creators to introduce the Turkish League to the world by creating videos and news coverage.

May the Turkish League be auspicious and beneficial for human civilization and all sports lovers.

My Precious One's

Once again, we are experiencing the results of your immense love. Let's share the Turkish League with all sports organizations, sports media, and sports fans via the link [www.doorsnews.com/Turkish League](http://www.doorsnews.com/Turkish_League). Let's make a big splash in the world. Praise and thanks be to God who has bestowed upon us these great blessings and happiness. May God's forgiveness, blessings, and protection be upon us all.

I love you all very much and I am proud of you all. You are my light. You are my everything.

With my respect and love

Halil Coşkun BEYOĞLU
